

I do not want un-solicited calls or FAX transmissions from telemarketers. Even though I am on the "Do Not Call List," I still receive many calls. I reported the steady receipt of FAX transmissions to Verizon, only to be told, "We get them, too, we just throw them away!" Not exactly the response I was looking for in trying to stop the unsolicited FAXs!

I feel the NJ Law should be left as is and that enforcement be made the responsibility of the carrier.

Thank you
